Hi Barbara,

I hope you are doing well. To my knowledge, the version Patrick sent (attached) is the latest version of the initiative with USG comments. I've copied Hodayah and Patrick in case they are aware of a more recent version – there have certainly been lots of documents flying around this week!

Best Regards,
Max

Hi Max –

Patrick and I had exchanged messages yesterday about the land deg initiative doc. I understand that we did not send in the USG comments before the call on Thursday, which is good since as I explained to Patrick we had some version control issues on our end that I caused and we sent almost nothing in. Patrick was to send me the latest – he had mentioned that you had received additional NOAA comments – but when I finally looked just now at what he sent me it is the communique and not the land deg initiative. There are too many documents!!

Anyway, I know Patrick is out today so I wanted to clarify with you whether the land deg initiative attached to this message has the latest consolidated USG comments in it so I can be sure that I am using the right one to add in a few things.

Thanks for your help, I appreciate it!

Cheers!

Barbara

Chris, Barbara, and Trisha,

I hope you are all ready for next week! By now, you should have received information for participating in at least the coral reef workshop this Sunday and please advise if you have not. I will be testing the system tomorrow morning and let all of you know if there are any issues.

I am also sending to you a few documents. Attached are:

- 1) Environment Communique with highlighted new text and comments on what US edits were or were not taken on board
- 2) Coral Reef Conservation Platform with USG comments
- 3) Land Degradation Initiative with USG comments
- 4) (2) PDFs of Presentations that NOAA will be giving during the Coral Reef Workshop on Sunday

I am also working on the talking points and building off of the comments we have received from State, EPA, NOAA, USAID, USDA, and DOE. Please let me know if you have anything additional to add. I aim to send those tomorrow as we expect some of those still to come. Additionally, I will be sending some notes from our bilateral call with KSA today. Not a lot that is new, but in case it helps clarify their intentions.

Also, we would like to establish a What'sApp group for exchanges during the EDM. If you wouldn't mind, please send me your phone number and I will create a What'sApp group for our team.

I hope this finds you all well and you get plenty of rest for the weekend!

Please let me know if you have any questions or concerns. I can be reached at Ex. 6 Personal Privacy (PP)

Have a great Saturday and see you all online Sunday (except Barbara – lucky!)

Best,

Patrick
